# FEDERAL HEIGHTS KELSEY HAS

Residence Property Open to Public.

\$75,000 TO BE SPENT ON AND CITY IS WITHOUT FUNDS TO STREETS AND SEWERS.

Arrangements were completed yesof residence property they purchased nearly a year ago from Le Grand Young, situated on the northeast bench, bounded on the west by University avenue, on the north by Popperton Place, on the east by the Fort Douglas reservation, and on the south by the university grounds.

The big tract has been cut up into over 300 tots, and a most elaborate plan has been devised for platting the property, which is to be called Fed-eral Heights. Brigham street, extendthis extension of Brigham, as it goes city has no money to do the work east through the heights, will be run with, and the critical situation of being V. The part of the present macadam not having any money to do it with

streets a park 180x90 feet is to be made. corners lots have been rounded off, making three splendid building lots, from any one of which a beautiful view of the valley and of Salt Lake can be had. The southeastern and southwestern parts of the tract are to be cut with two streets, the first to be had to 'ay his gutters on top of the be cut with two streets, the first to be Perry avenue, while the street across he entire western boundary of the addition separating it from the reservation will be known as Wolcott avenue. Mr. Wrench said yesterday that he has let contracts for construction of the streets named above, for macadamizing and for building sidewalks, sewers and watermains. The improvements will cost about \$75,000.

## WEATHER IS CLEARING UP

#### Indications Point to Slight Showers This Morning, Followed by Clear and Cool Day.

The delayed thunderstorm, promised for Friday evening, arrived early Saturday morning and thoroughly cooledoff the atmosphere before continuing on its way toward the east. The second day of summer had a minimum temperature of 42 degrees, due to the storm, but after skies cleared and the sun began to make itself felt the ther-

dications point to a few slight showers some time and may prevent the comearly this morning and then clear pletion of the contract this year. weather for several days to come. No As a result P. J. Moran, the other storm or thunder clouds have been sighted by the weather man, and they announce themselves as confident the destruction of the new curbs and of being able to produce real summer gutters, which will be taxed against weather from now on.

tinue to make themselves felt, it had nestled all day Friday. San work is not finished yet, and the whole Francisco continued in the cool belt, 58 affair has cost the city a considerable being the maximum temperature recorded during the day.

The thunderstorm, which the weather man designates the plateau storm. has moved eastward, according to his report, and after wetting the north plateau and the Rocky mountains wil continue on farther east. Heavy rains were reported in Kansas City and from the British Pacific northwest ter-

The low pressure which caused showers will not be noted after to rooms. day. For Utah and west Wyoming the was the outlook for Sunday picnics and excursions is clearer and cooler.

#### COFFEE CUP SHATTERED AGAINST HIS FEATURES

marring of his countenance by having an earthenware coffee cup shattered by impact with his features is worth exactl impact with his features is worth exactly \$299. Consequently he has brought suit in the civil division of the city court for that amount against J. A. Reed, the man who pushed the cup into Blunck's face. The incident is said to have occurred April 10 and to have so disfigured the beauty of the plaintiff that for several days he was unable to appear in public.

An attached affidayit asserts that Reed An attached affidavit asserts that Reed at the time was an employe of the Boston Consolidated Mining & Smelting company and was working at the Garfield smelter. Immediately after disfiguring Blunck's face he is said to have disappeared and the allegation is made that his haste was great that he forgot to draw his salso great that he forgot to draw his salso great that he forgot to draw his salary. Consequently no personal service of the complaint can be had on him and a summons by publication is authorized.

New Forty-Acre Tract of Fine Enormity of Grading Error on First and Second Avenues Apparent.

#### PLAN MANY IMPROVEMENTS NECESSITATES NEW MAINS

DO THE WORK.

Either L. C. Kelsey, city engineer, is terday by L. L. Nunn and A. M. endeavoring to compel the city to Wrench of Sait Lake for placing on spend \$18,000, which sum is not avail-the market the forty-three-acre tract able, to complete new water mains on First and Second vaenues, or it is apparent he has made one of the most

serious blunders in his career.

When the fact developed at the ouncil waterworks committee meeting Friday evening that because of the grading down of the streets the old water mains are in some cases within a foot of the surface and all directly under the new curbing, the magnitude of the error was not at first apparent. eral Heights. Brigham street, extend-ed, will cut the property through the center. The present macadam road forced to the conclusion that it will be from the end of Brigham street to the fort will form part of the extension of Brigham street to be made through the heights. Practically in the middle of day evening acknowledged that the two macadam roads in the shape of a compelled to do a certain work and

road running in a southeasterly direction to the fort will form one arm of this V and will be known as Federal avenue, the other arm of the V will be known as Bigsbee avenue.

At the junction of these three new the intersections were ordered, as the new pipe can go inside the curbing. new pipe can go inside the curbing.

#### Moran Graded Streets.

Then Moran came along and graded he street preparatory to laying macalled Butler avenue and the other water pipes and so mold the concrete that it would adhere to the rounded surface. When this was called to the attention of the engineer and he was asked if it would not be advisable to ower the pipe he replied that the pipe was not worth lowering, and the work

Now it has been discovered that even the new intersections have not been laid to a sufficient depth, no account having been taken of the cutting of the street grade, and it is entirely like-

ly that this will have to be torn up, to-gether with the macadam which cov-ers it in some places.

The old water pipe will, of course answer the purpose this summer, but when winter course it will freeze when when winter comes it will freeze and if nothing is done the people this district will be without water for four months. How the city can put in the new pipes without money is not apparent even to Councilman Mulvey How the people can get along without water is not apparent either.

#### More Trouble in Sight.

If it is decided to lower the old pipes, in many cases the new curbs and mometer worked its way back to the ly laid will have to be cut up and put in over again. This will delay According to the weather bureau, in- work of completing these streets for As a result P. J. Moran, the con-

Many of the eastern cities would the city.

This is not the first time a similar have been thankful for a short visit predicament has been faced. Last from the thunderstorm.
